

**EXPLORER &  
GOLD PRODUCER**

**STARCORE**  
INTERNATIONAL  
MINES LTD.

**TSX:SAM**

Starcore International Mines has assembled a strategic blend of experienced professionals and seasoned veterans in fields of: Corporate Finance, International Law, Engineering and Geology. Collectively, Starcore's management brings over 100 years of experience to the business of mineral exploration and development.

We advocate making business decisions based on constructive dialogue between management and directors and we view dialogue as the key to building long-term sustainable growth for our investors.

## STARCORE EMBARKS ON GEOPOLITICAL DIVERSIFICATION WITH IVORY COAST ACQUISITION

Starcore strategically diversified its operations by acquiring EU Gold Mining Inc. in August 2023, gaining control of the promising Kimoukro Project in central Ivory Coast. The project, spanning 14.48 km<sup>2</sup>, has significant potential for economic gold discovery, strategically located south of Yamoussoukro within the Fetekro-Oumé Greenstone Belt. This belt, extending over 170 km, hosts various gold deposits and prospects, characterized by shear-hosted lode gold, sheeted veins, intrusion-related veins, and notable supergene mineralization in regolite and soil.

### MANAGEMENT

The right combination of technical and capital markets experience

### GOLD PRODUCING

Our San Martin mine in Mexico is an efficient producer at approximately 12,000 AuEq a year with a 10-year mine life

### EXPLORATION

Low risk/high reward assets that provide accretive value to our shareholders

### DEBT FREE

The company is debt free with a strong share structure.
